Abstract

The optional abstract (one or more paragraphs) goes here.

This document is an AsciiDoc article skeleton containing briefly annotated element placeholders plus a couple of example index entries and footnotes.

This is the optional preamble (an untitled section body). Useful for writing simple sectionless documents consisting only of a preamble.

Note

The abstract, preface, appendix, bibliography, glossary and index section titles are significant (*specialsections*).

1 The First Section

Article sections start at level 1 and can be nested up to four levels deep.¹

And now for something completely different: monkeys, lions and tigers (Bengal and Siberian) using the alternative syntax index entries. Note that multi-entry terms generate separate index entries.

Here are a couple of image examples: an **NEW** example inline image followed by an example block image:

Figure 1: Tiger block image

Followed by an example table:

Table 1: An example table

| Option | Description |
|----------------------|-----------------------------------|
| -a <i>USER GROUP</i> | Add <i>USER</i> to <i>GROUP</i> . |
| -R <i>GROUP</i> | Disables access to <i>GROUP</i> . |

¹An example footnote.

Example 1.1 An example example

Lorum ipsum...

1.1 Sub-section with Anchor

Sub-section at level 2.

1.1.1 A Nested Sub-section

Sub-section at level 3.

Yet another nested Sub-section

Sub-section at level 4.

This is the maximum sub-section depth supported by the distributed AsciiDoc configuration.²

2 The Second Section

Article sections are at level 1 and can contain sub-sections nested up to four deep.

An example link to anchor at start of the [first sub-section](#).

An example link to a bibliography entry [\[taoup\]](#).

A Example Appendix

AsciiDoc article appendices are just article sections with *specialsection* titles.

A.1 Appendix Sub-section

Appendix sub-section at level 2.

3 Example Bibliography

3.1 References

[1] [taoup] Eric Steven Raymond. The Art of Unix Programming. Addison-Wesley. ISBN 0-13-142901-9.

²A second example footnote.

4 Example Glossary

Glossaries are optional. Glossaries entries are an example of a style of AsciiDoc labeled lists.

A glossary term

The corresponding (indented) definition.

A second glossary term

The corresponding (indented) definition.
