Example Dedication

Optional dedication.

This document is an AsciiDoc book skeleton containing briefly annotated example elements plus a couple of example index entries and footnotes.

Books are normally used to generate DocBook markup and the titles of the preface, appendix, bibliography, glossary and index sections are significant (*specialsections*).

Example Preface

Optional preface.

Preface Sub-section

Preface sub-section body.

Chapter 1

The First Chapter

Chapters can contain sub-sections nested up to three deep. ¹

Chapters can have their own bibliography, glossary and index.

And now for something completely different: monkeys, lions and tigers (Bengal and Siberian) using the alternative syntax index entries. Note that multi-entry terms generate separate index entries.

Here are a couple of image examples: an **NEW** example inline image followed by an example block image:
